

Personal Telco Gear Grant Application

Name: Aaron Baer

Location: 6856 N Greeley Ave. 97217 - Arbor Lodge Network

Contact Info: aaronb@personaltelco.net - 503.956.3825

Gear Request: 6 - wgt634u's for expansion of the Arbor Lodge mesh network in North Portland.

Application:

Arbor Lodge Network requests 6 wgt634u's for expansion of the Arbor Lodge mesh network. These devices will be distributed to at least 3 locations within the area of the existing network for use of expanding the network coverage in the neighborhood as well as to add extra routeable exits to internet connections to expand the bandwidth options of the network and the expand the overall resources available to the network.

Devices will be configured and installed by current network operators to be placed on location in a "permanent loan" while the network node is in operation. Each new node host will be taught how the equipment operates, how to perform different types of maintenance, and provided immediate contact information for other network operators.

Gear would be returned to Aaron Baer and be redeployed if host decides to not remain part of the network or a more accurate node placement is organized.

Project Duration: Permanent Temporary Est. End Date: 12/31/2007

PTP Member? (Yes)

If you are not currently a member, will this gear facilitate becoming a member?

Yes, Explain:

No, Why Not:
