When I have a dispute with my home/business Internet provider, I can get satisfaction by turning to which institutions (check any that apply)?
Check all that apply.
US Congress
Federal Communications Commission
State legislature
Oregon Public Utilities Commission
Oregon Department of Justice
Mount Hood Cable Regulatory Commission
Office of Community Technology
City Council
None of these institutions can/will help
Other:
10. In a perfect world, how would your home/business Internet service be better? (i.e. how might you want to use your home internet service that you can't now?)
11. How important is it for students to have Internet access?
Mark only one oval.
1 2 3 4 5
Not important Very Important
12. How important is it for low-income families to have Internet access? Mark only one oval.
1 2 3 4 5
Not important Very Important
Let's imagine we want to solve some or all of these problems, and that the only practical way is to create a local, publicly-owned, at-cost telecommunications utility 13. How important is user input in governance of a public telecommunications utility? Mark only one oval.
1 2 3 4 5
Not important Very important
14. How important is it that rates pay only for utility costs? Mark only one oval.
1 2 2 4 5
1 2 3 4 5
Not important Very important
15. Subscribers should subsidize access for families who can't afford home Internet access. Mark only one oval.
1 2 3 4 5
Strongly disagree Strongly agree
16. Taxpayers should subsidize access for families who can't afford home Internet access. Mark only one oval.
1 2 3 4 5
Strongly disagree Strongly agree
I care enough about this issue that I would financially support a campaign to create a publicly-owned telecommunications utility. Mark only one oval.
